HR Partner: silvana.angel

## SUMMARY

Adam is a Cloud Architect, specializing in shaping the future of digital transformation. I have a deep understanding of cloud platforms services, DevOps, Infrastructure, architecture design, strategic planning, road mapping and ability to drive successful execution of projects in Azure, Amazon Web Services, Google Cloud Oracle Cloud. I empower organizations achieve their strategic objectives and operate effortlessly.

## SPECIALIZATION

**Specialized:** Cloud Application Advisory, Core Banking, DevOps, Platform Engineering

**Building:** Cloud Native Architectures, Custom & Integration Architectures, Google Applications

**Aspirational:** Google Infrastructure

## SKILLS

Skill	Proficiency	Skill	Proficiency
Application Architecture Estimation	5 - Master	Design & Build Enablement	3 - Advanced
Applications Architecture	5 - Master	DevOps	3 - Advanced
Architectural Design	5 - Master	Docker Kubernetes Architecture and Design	3 - Advanced
Cloud Orchestration	5 - Master	Google Cloud Platform Architecture	3 - Advanced
Cloud Strategy and Assessment	5 - Master	IT Infrastructure Management	3 - Advanced
Configuration & Release Management	5 - Master	Infrastructure As Code (IaC)	3 - Advanced
Google Kubernetes Engine	5 - Master	Infrastructure Event Management	3 - Advanced
Linux	5 - Master	Integration Architecture Implementation	3 - Advanced
Solution Architecture	5 - Master	Jenkins (Software)	3 - Advanced
Technology Architecture Assessment	5 - Master	Kubernetes	3 - Advanced
Technology Architecture Blueprint & Roadmap Definition	5 - Master	Linux Shell Scripting	3 - Advanced
API Integration	4 - Expert	Modern Platform Engineering Architecture	3 - Advanced
AWS Administration	4 - Expert	Oracle Fusion Middleware WebLogic Server Admin (WLS)	3 - Advanced
AWS Elastic Kubernetes Service (EKS)	4 - Expert	Platform Engineering	3 - Advanced
Agile Leadership	4 - Expert	Red Hat OpenShift	3 - Advanced
Application Replatforming Fundamentals	4 - Expert	Release Management	3 - Advanced
Architecture Frameworks	4 - Expert	Shell Scripting	3 - Advanced
Architecture Strategy	4 - Expert		

Skill	Proficiency		
Azure Kubernetes Service (AKS)	4 - Expert	Site Reliability Engineering	3 - Advanced
Cloud Application Architecture	4 - Expert	Technology Architecture	3 - Advanced
Cloud Infrastructure Architecture Design	4 - Expert	Terraform	3 - Advanced
DevOps Architecture	4 - Expert	Unix Platforms	3 - Advanced
DevSecOps	4 - Expert	AWS Architecture	2 - Intermediate
Docker (Software)	4 - Expert	AWS Core Infrastructure	2 - Intermediate
Enterprise Architecture Planning (EAP)	4 - Expert	Account Delivery Management	2 - Intermediate
GitHub Repositories	4 - Expert	Application Strategy	2 - Intermediate
Github Operations	4 - Expert	Bitbucket	2 - Intermediate
Google BigQuery	4 - Expert	Cloud Data Migration	2 - Intermediate
IT Infrastructure Operations	4 - Expert	Cloud Infrastructure Transformation and Build	2 - Intermediate
ITIL Incident Management	4 - Expert	Cloud Security	2 - Intermediate
Incident Management	4 - Expert	Collaborative Technologies	2 - Intermediate
Infrastructure Automation	4 - Expert	Confluent Event Streaming Platform	2 - Intermediate
Infrastructure Design	4 - Expert	Core Banking	2 - Intermediate
Infrastructure Strategy	4 - Expert	Core Banking Architecture	2 - Intermediate
Integration Architecture Blueprint & Design Solutions	4 - Expert	Custom Application Architectures	2 - Intermediate
Intelligent Infrastructure	4 - Expert	Deployment Management	2 - Intermediate
Microsoft Azure Architecture	4 - Expert	Enterprise Application Integration (EAI)	2 - Intermediate
Operational Architecture	4 - Expert	Estimation and Planning	2 - Intermediate
Responsive and Adaptive Design	4 - Expert	Google Cloud Compute Services	2 - Intermediate
SRE Assessment	4 - Expert	Google Cloud SQL	2 - Intermediate
SRE Build Run Design	4 - Expert	Google Cloud Storage	2 - Intermediate
SRE Roadmap	4 - Expert	Infrastructure Monitoring	2 - Intermediate
Server Architectures	4 - Expert	Microservices and Light Weight Architecture	2 - Intermediate
Software as a Service (SaaS)	4 - Expert	Microsoft Azure IaaS	2 - Intermediate
Agile Change	3 - Advanced	Oracle Cloud Applications Technical	2 - Intermediate
Agile Program Management	3 - Advanced	Oracle Cloud Infrastructure Architecture	2 - Intermediate
Amazon Web Services (AWS)	3 - Advanced	Puppet Automation	2 - Intermediate
Amazon Web Services (AWS) Security	3 - Advanced	Scrum	2 - Intermediate
Apache Kafka	3 - Advanced	Stakeholder Management	2 - Intermediate
Application Migration	3 - Advanced	AWS Cloud Computing	1 - Beginner
Azure Devops	3 - Advanced	Ansible (Software)	1 - Beginner
Build Management	3 - Advanced	Banking	1 - Beginner
Cloud Automation DevOps	3 - Advanced	Consumer Technology	1 - Beginner
Cloud Enterprise Architecture	3 - Advanced	Continuous Improvement Techniques	1 - Beginner
		Electronic Medical Records (EMR)	1 - Beginner

Skill	Proficiency		
Cloud Infrastructure Assessment & Planning	3 - Advanced	Generative AI	1 - Beginner
Cloud Management Platform	3 - Advanced	Grocery Industry	1 - Beginner
Cloud Platform Architecture	3 - Advanced	Human Services Ecosystem	1 - Beginner
Cloud Technology Architecture	3 - Advanced	Python (Programming Language)	1 - Beginner
Containerization	3 - Advanced	Software Development Risk Assessment	1 - Beginner
Copado DevOps Implementation	3 - Advanced	Software Product Management	1 - Beginner
Copado DevOps Platform	3 - Advanced		

## PRIOR WORK EXPERIENCE

### • Asset Engineering Hub - ACCENTURE - INTERNAL ORGANIZATIONS

May 14, 2024 - August 30, 2024

Role: 60002060 ~ DevOps Engineer

Description: Client & Project: The Asset Engineering Hub project is seeking a DevOps Engineer to join our team. As a mid-level DevOps Engineer, you will be responsible for ensuring the smooth operation of our software engineering processes. Responsibilities: As a DevOps Engineer, you will be responsible for managing our software development infrastructure, including continuous integration and deployment pipelines. You will work closely with our development teams to ensure that our software is delivered on time and with high quality. Your primary skill, DevOps, must be at an expert level. Additionally, you should have expert proficiency in Continuous Improvement Techniques and Configuration & Release Management. Proficiency in Cloud Automation DevOps is also preferred. Design and implement continuous integration and deployment pipelines. Collaborate with development teams to ensure software is delivered on time and with high quality. Manage software development infrastructure. Ensure the smooth operation of software engineering processes.

### • ALIGHT SOLUTIONS - Alight Solutions

April 1, 2024 - July 19, 2024

Role: 60000141 ~ Technology Architect

Description: The client would like to remediate some of the technical debt that was carried into their AWS estate from a DC exit rehost effort in 2023. The primary approach is through replatforming using Terraform and Ansible automation. Not all applications will be remediated via replatforming, so there will be some analysis and design on how to address the primary concern (i.e. old OS, platforms, etc). This role will be responsible for gathering the infrastructure and application requirements from the client team, creating architecture diagrams, creating application automation designs and pseudocode, identifying smoke test steps to validate the application installation, and transitioning the architecture and design documents to our ATCI team for development of the solutions. Once the development is complete, the architect will support the smoke test execution and transition the completed environments to the client for testing.

### • 0011965085 - SALESFORCE.COM, INC.

January 8, 2024 - February 16, 2024

Role: 60000008 ~ Application Lead

Description: Client & Project: salesforce.com, inc. is a leading cloud-based software company with the 0011965085 project focused on delivering innovative solutions. Responsibilities: As a Mid-Level Application Lead, you will be responsible for Configuration & Release Management. Your day-to-day activities will include managing the release process, coordinating with cross-functional teams, and ensuring timely delivery of high-quality software. Manage the release process and ensure timely delivery of software. Coordinate with cross-functional teams to ensure smooth release cycles. Develop and maintain release schedules and documentation. Identify and mitigate risks associated with the release process. Ensure compliance with company policies and procedures related to Configuration & Release Management.

- **0011965085 - Salesforce**

January 7, 2024 - February 15, 2024

Role: 60002616 ~ Architecture Assessment Practitioner

Description: audit assessment and proposal for best practices around devops

- **Wendys-Transition - Wendys**

November 1, 2023 - January 31, 2024

Role: 60000005 ~ Application Architect

Description: Solution Architecture team to design and implement effective solutions, architect infrastructure for Puppet solutions. Create scalable and maintainable Puppet manifests and modules. Collaborate with stakeholders to understand business value. Scale, optimize performance and efficiency and implement triage best practices.

- **Transition - THE WENDY'S COMPANY**

November 1, 2023 - December 29, 2023

Role: 60000008 ~ Application Lead

Description: Responsibilities: As a Mid-Level Application Lead, you will be responsible for Configuration & Release Management. You will work closely with the Solution Architecture team to design and implement effective solutions. Your day-to-day activities will include managing the release process, coordinating with development teams, and ensuring timely delivery of software releases. Manage the Configuration & Release Management process for the Transition project. Coordinate with development teams to ensure timely delivery of software releases. Ensure compliance with established release management policies and procedures. Provide technical guidance and support to project teams throughout the implementation lifecycle. Collaborate with the Solution Architecture team to design and implement effective solutions.

- **Service Delivery - SI - Systems Integration - FINXACT LLC**

March 14, 2022 - June 15, 2023

Role: 60002060 ~ DevOps Engineer

Description: Client is a Modern core as a banking provider. They have a backlog of client commitments. This role will be responsible for leading a small team (offshore and onshore) in supporting the client in their backlog. Activities include: infrastructure utilizing knowledge in continuous integration, delivery, and deployment (CI/CD), Cloud technologies, Container Orchestration. Build and test end-to-end CI/CD pipelines. Working knowledge of Terraform, Kubernetes, GoLang, Python, Docker, JSON, and PostgreSQL.

- **PepsiCo - DPS support - PEPSI**

October 27, 2021 - March 6, 2022

Role: 60000077 ~ Integration Architect

Description: Create a high-level design of an end-to-end integration solution. Define the flow of data between the applications that must be integrated, mapping business process activities to the applications that support them, and drafting a data object.

- **ALIGHT SOLUTIONS - Alight Solutions**

June 13, 2021 - October 28, 2021

Role: 60001378 ~ Business Strategy Architect

Description: Design an application with a team using Puppet and OS scripting to update an applications manifest file from components updated in a developers Jira ticket. The goal is to automate release notes and create a manifest that is a complete inventory of the necessary files and components to fully deploy the application. This manifest file would then be used by downstream automation to deploy the application.

- **Humana Security |Forge Rock - 9940335289 - HUMANA**

April 3, 2021 - June 28, 2021

Role: 60000055 ~ Delivery Lead

Description: Delivery Lead needed at Humana to fill in for a Humana exec who is going out on LOA. Lead will oversee ITSM practices - helpdesk, ticketing, portfolio management, ITSM, ITIL, ServiceNow, automate workflows, and improve efficiency with ITIL best practices. Identify strategic process improvements, standardize metrics, proactive remediation.

- **MD Dept of Labor UI Surge Support - STATE OF MARYLAND**

April 19, 2020 - January 30, 2021

Role: 60000044 ~ Customer Contact Comms Practitioner

Description: Team lead responsible for staffing, QA, onboarding, training coaching, metrics, project process improvements, omni channel chat inbound & outbound management. Assist Vendor and ADL leadership with strategies to improve overall contact center initiatives.

- **FAR:Legend - US Department of Veterans Affairs**

January 29, 2019 - March 25, 2020

Role: 60002105 ~ Cloud Migration Engineer

Description: IBM cloud migration and DevSecOps capabilities. Implementing security standards and guidelines into development environments. Automating OS, application security tests into CI/CD pipelines leveraging CIS benchmarks. Infrastructure design, scalability, disaster recovery, virtualization, compliance & governance, documentation

- **ESB Dev - Centurylink**

March 17, 2016 - April 16, 2023

Role: 60000073 ~ Infrastructure Architect

Description: Lead software team in planning, design, and deploying technical solutions and manage technical aspects of client integrations. POC for ensuring that the underlying technology stack is robust, scalable, and capable of supporting the organization's business objectives.

- **POTS - Cable & Telecom**

October 12, 2014 - March 18, 2018

Role: 60000008 ~ Application Lead

Description: Application ownership, provide leadership and guidance to the development team. Project management, architectural and design decisions, resolving technical issues, identifying and addressing bugs, metrics, security compliance and stakeholder management.

- **CRIS Billing - Qwest**

November 11, 2012 - September 7, 2016

Role: 60001526 ~ Software Configuration Lead

Description: Lead the vision for technology architecture for high volume transactions. Assess current and future state architecture, pain points, blueprints, roadmap milestones, dependencies for each workstream initiatives. Define KPIs to measure goals while evaluating business objectives.

- **BOSS CARS - US WEST**

March 14, 2010 - November 11, 2013

Role: 60001991 ~ Advanced Technology Center Lead

Description: Developing and implementing technology strategies and roadmaps that align with the organization's business objectives. Team management, design, develop new technologies, solutions

- **CSG Comcast - CSG**

May 2, 2006 - March 26, 2009

Role: 60002054 ~ Enterprise Technology Architect

Description: Technical delivery lead role in clustering applications on ESB middleware using WebSphere. Onshore lead for cross-functional, on/offshore software development. Design highly scalable, available, and secure platform solutions. Manage distributed transactions to ensure that operations across multiple systems. Data transformation, message queues, SOA implementation and API management.
